

Breakout Session 2: Low Carbon Asia Research Network (LoCARNet) 3<sup>rd</sup>  
Annual Meeting, 14:30-16:30 25 November 2014

# New co-financing model of research partnership in the Asia-Pacific

Summary

# Discussion

- Share information and experiences of national and international research funds
- Discuss opportunities and barriers on establishment of research funds in each country
- Possible collaborative joint activities

Q1: Is it possible to establish / enhance national GCR funds that could promote regional / international activities

Q2: How could you link national GCR funds to other domestic research funds operated by neighboring countries or by international / regional funding agencies

- Dr. Takemoto- Domestic research programme- Case of Japan
- Mr. Sabar Ginting –Indonesian incentive for environmental management
  - Mr. B M U D Basnayake-Sri Lankan research funding and newly established partnership with APN
  - Prof. Dr. Singgih Riphath- Nature of the Indonesia Research fund allocation and it's usage
  - Mr. Brett Shields- Information about the Green bond
  - Ms. Taniya Koswatta- APN Co-financing Partnership

# Key Finding

- Developing countries need assistant or model to promote usage of national research fund effectively with in their country.
- Developed countries, international organizations, and regional network can play active role on assisting developing countries
- Regional collaboration important to enhance regional assessment. National level fund can contribute to such activities through effective collaboration.
