

Researcher's profile sheet

		<input checked="" type="checkbox"/>
Name	Kristine Garcia-Gibe	
Organization/ Affiliation	TMP Systems	
Country	United Kingdom	
Position	Associate	
Profession/ Research Area/ Research interests	<i>What is your current research interest?</i> My research interests are on global environmental change research including climate, energy and ecosystems and natural resources management.	
Research Activities related to LCS	<i>Could you tell us your current low-carbon related activities/projects?</i> Currently I am working on projects related to climate and ecosystems which we know are related to low carbon issues particularly the issue of climate change.	
Research Activities/Projects	<i>Could you tell us your research activities/ projects if you have any other main research activities which are not related to low-carbon?</i> I used to work with projects related to watershed management and biodiversity conservation. But I would say those in many ways have links to low carbon issues.	
Expectation for LoCARNet	<i>What are your expectations for Low Carbon Asia Research Network (LoCARNet)? Do you have any requests for LoCARNet?</i> I hope the network would continue to serve as platform for scientists, policy-makers and all other stakeholders of the environment particularly those who have interests in low carbon development. The network should capacity building through providing lectures and courses on low carbon issues.	
Publications	<i>Please list your three main publications below? Alternatively, please let us know the publications later by email etc.</i> <ul style="list-style-type: none"> • Garcia, K., Lasco, R.D., Ines, A.V.M., Lyon, B. and F. Pulhin. 2014. Predicting geographic distribution and habitat suitability due to climate change of selected threatened forest tree species in the Philippines. <i>Journal of Applied Geography</i>. • Garcia, K., Malabrigo, P., and Gevaña, D. Philippines' Mangrove Ecosystem: Status, Threats, and Conservation In. Ibrahim, F.-H.; Latiff, A.; Hakeem, K.R.; Ozturk, M. (Eds.). 2014. Status, Challenges and Management Strategies, 500 pages. Springer • Lasco, R.D., Pulhin, F.B., Sanchez, P., Garcia, K. and Gerpacio, R. 2009. Mainstreaming Climate Change in the Philippines. <i>Climate and Development</i> 1 (2009) 130–146. doi:10.3763/cdev.2009.0009
