ព្រំប្រទល់ជាតិ និង អន្តរជាតិក្នុងដែនទីនេះ
ពុំត្រូវបានចាត់ទុកជាផ្លូវការទេ

1.Forest Cover 2010

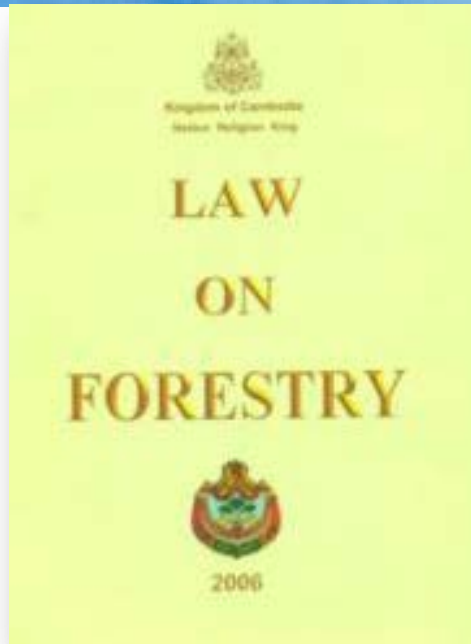

Forest Cover Statistic 2010

No	Forest Type	Area	
		Ha	%
1	Evergreen Forest	3,499,185	19.27
2	Semi-evergreen Forest	1,274,789	7.02
3	Deciduous Forest	4,481,214	24.68
4	Other Forest	1,108,600	6.10
Total Forest Land		10,363,789	57.07
5	Non-Forest	7,796,885	42.93
Total Area		18,160,674	100

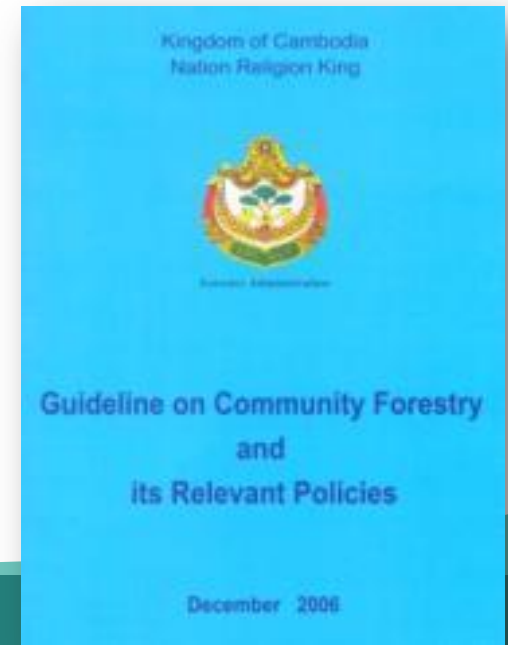

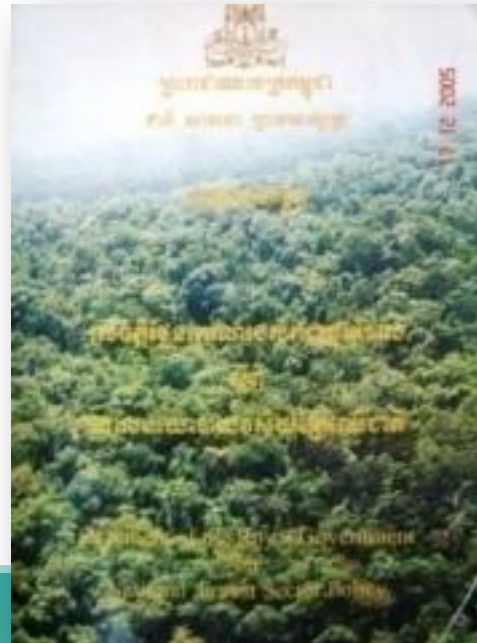

Rate of Forest Cover 2010

2. Key Policies, Laws and Regulations Relevant to REDD+

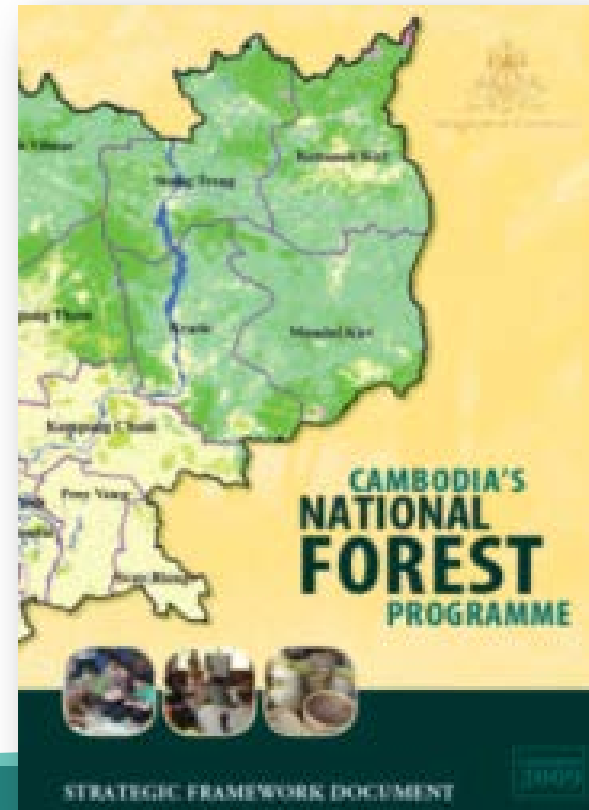

- ◆ Millennium Development Goal
- ◆ Rectangle Strategy of RGC
- ◆ National Strategic Development Plan
- ◆ National Forest Policy
- ◆ Forestry Law
- ◆ National Forest Program

2. Key Policies, Laws and Regulations Relevant to REDD+

Operational Framework of NFP:

- ◆ Forest Demarcation, Classification and Registration
- ◆ Forest Resource Management and Conservation
- ◆ Forest Law Enforcement and Governance
- ◆ Community Forestry Programme
- ◆ Capacity and Research Development
- ◆ Sustainable Forest Financing

3. What is REDD+?

Definition:

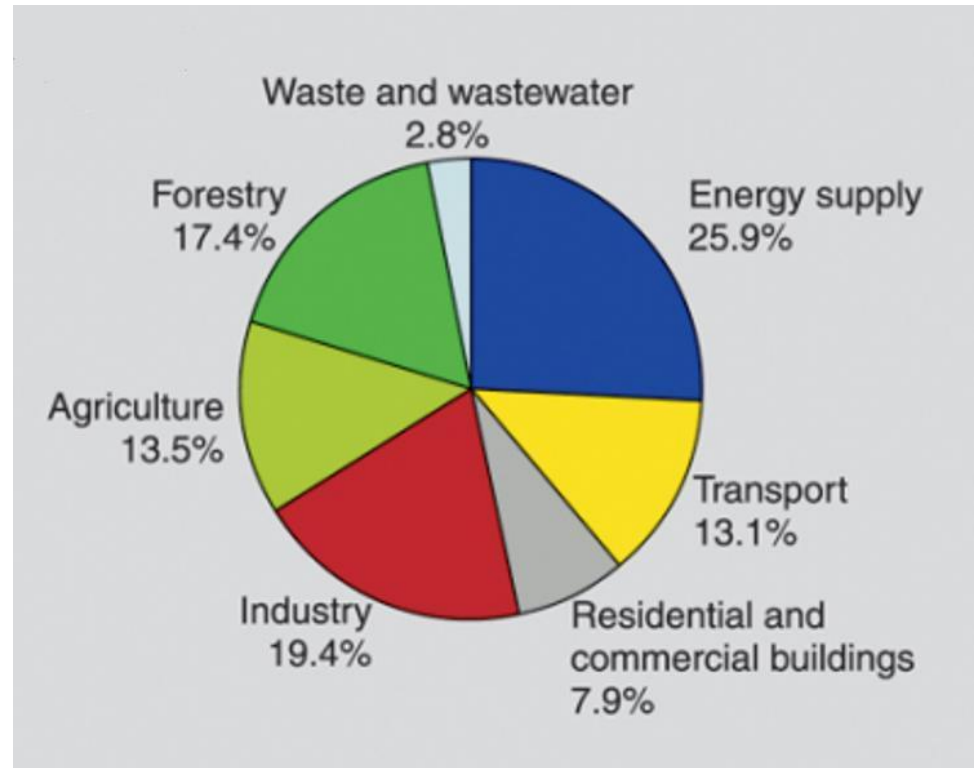

Reducing Emissions from Deforestation and Forest Degradation;
and the role of conservation, sustainable forests management
and enhancement of carbon stocks

+ = conservation, SFM and enhancement of carbon stocks

3. What is REDD+?

Justification:

➤ Why do we need REDD+?

3. Cambodia REDD+ Program

What is REDD+ Roadmap

- ◆ A plan for preparation and management of REDD+ readiness process during 3-5 years
- ◆ First step towards establishment of National REDD+ Strategy in Cambodia
- ◆ A reference for fund raising

- ◆ Section 1: Management of REDD+ Readiness
- ◆ Section 2: Stakeholder consultation and participation
- ◆ Section 3: Selection of REDD+ strategies
- ◆ Section 4: Implementation Framework
- ◆ Section 5: Development of Forest Reference Emissions Level
- ◆ Section 6: Development of the Monitoring System

Cambodia REDD+ Status

4. UN-REDD and CAM-REDD Programme

Overview

- ◆ UN-REDD is a National Joint Programme – which coordinates inputs from three UN Agencies – FAO, UNDP, and UNEP
- ◆ UN-REDD and CAM-REDD is part of the Cambodia REDD+ Programme.
- ◆ The programme's objective is to support Cambodia to be ready for REDD+ implementation, including development of necessary institution, policy, and capacity.
- ◆ The central planning document for the programme is the Cambodia REDD+ Roadmap

Overview of the UN-REDD and CAM-REDD Programme

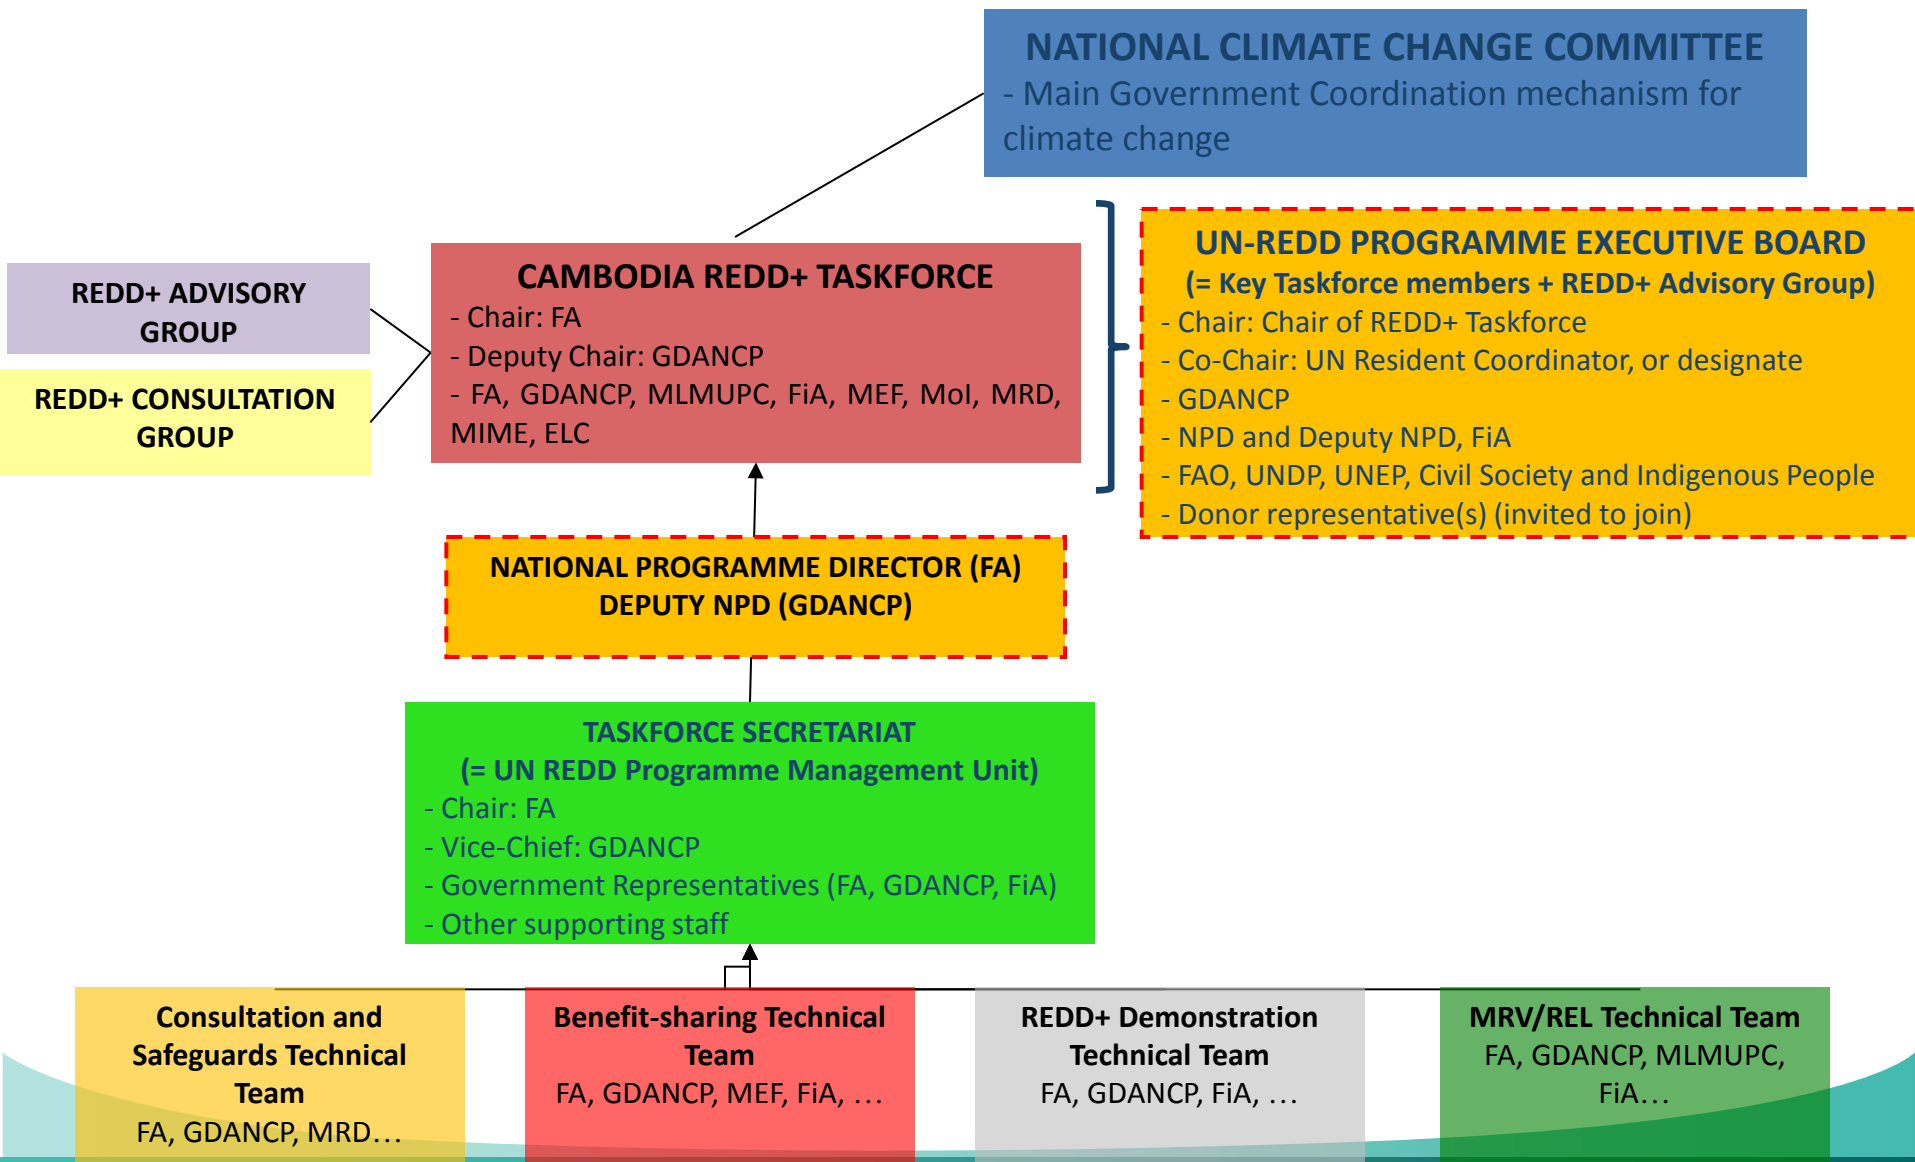

**Component 1: National REDD+ Readiness
Management and Consultation**

**Component 2: Development of REDD+ Strategy and
Implementation Framework**

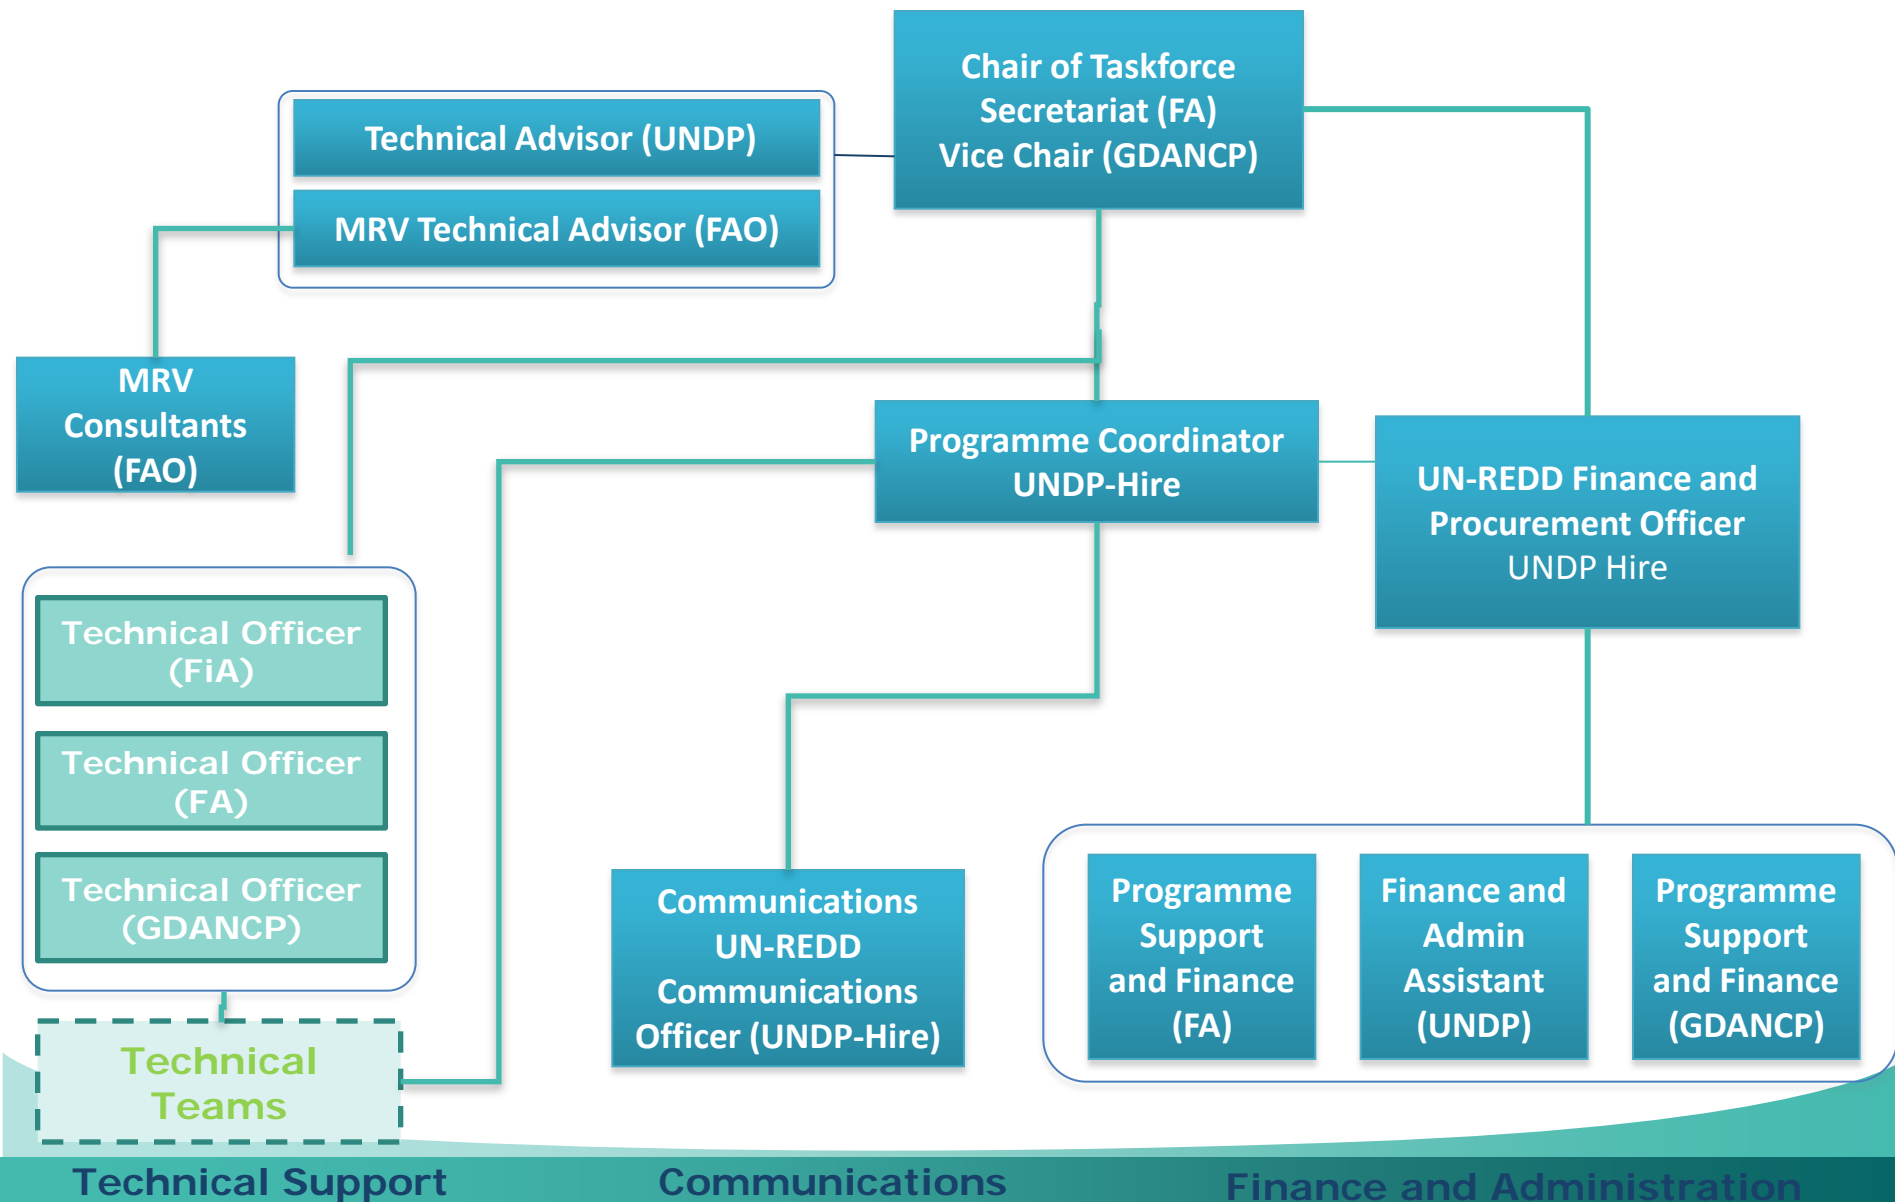

**Component 3: Sub-national REDD+ capacity-
building and demonstration**

**Component 4: Development of the REDD+
Monitoring System**

National REDD+ Readiness Coordination & Implementation arrangements

REDD+ Taskforce Secretariat Structure

1. National REDD+ Readiness Management & Consultation

2011

Establishment of
National Management
Arrangements

2012

Management of
Readiness, Stakeholders
engaged in the process

2013

Mainstreaming into
RGC Institutional
mandates

Output 1.1 National REDD+ Readiness Coordination Mechanism established

Output 1.2 Support to National REDD+ Readiness process

Output 1.3 Stakeholders are engaged in the REDD+ Readiness process

Output 1.4 Stakeholders provided with information on REDD+ and the
National REDD+ Readiness process

2. Development of REDD+ Strategy & Implementation Framework

2011

Policy and legal
analyses

2012

Legal, policy and
institutional reform

2013

National REDD+
Strategy
developed

Output 2.1 Development of individual REDD+ strategies and
implementation modalities

Output 2.2 Evaluation of Co-benefits

Output 2.3 Benefit Sharing Studies

Output 2.4 Establishing REDD+ Fund Mechanisms

Output 2.5 Policy and legal development for the National REDD+
implementation framework

Output 2.6 Safeguards and Monitoring of Co-benefits

3. Sub-national REDD+ capacity-building and demonstration

2011

Approve funding for
Pilot projects

2012

Pilot Projects

2013

Capacity for REDD+
implementation at
sub-national level

Output 3.1 Development of National REDD+ project guidelines and approval of funding for demonstration sites

Output 3.2 Pilot project activities

4. Support to development of the Monitoring system

2011

Capacity Assessments

2012

Design of the
Monitoring system

2013

National monitoring
system plan

Output 4.1 Establishment National MRV/REL Technical Team and build appropriate national capacity

Output 4.2 Develop Cambodia Monitoring system plan

Output 4.3 Review of the forest cover assessments to provide REDD+ activity data and design the satellite forest monitoring system

Output 4.4 Design of a National Forest Inventory to develop emission and removal factors for REDD+ related activities

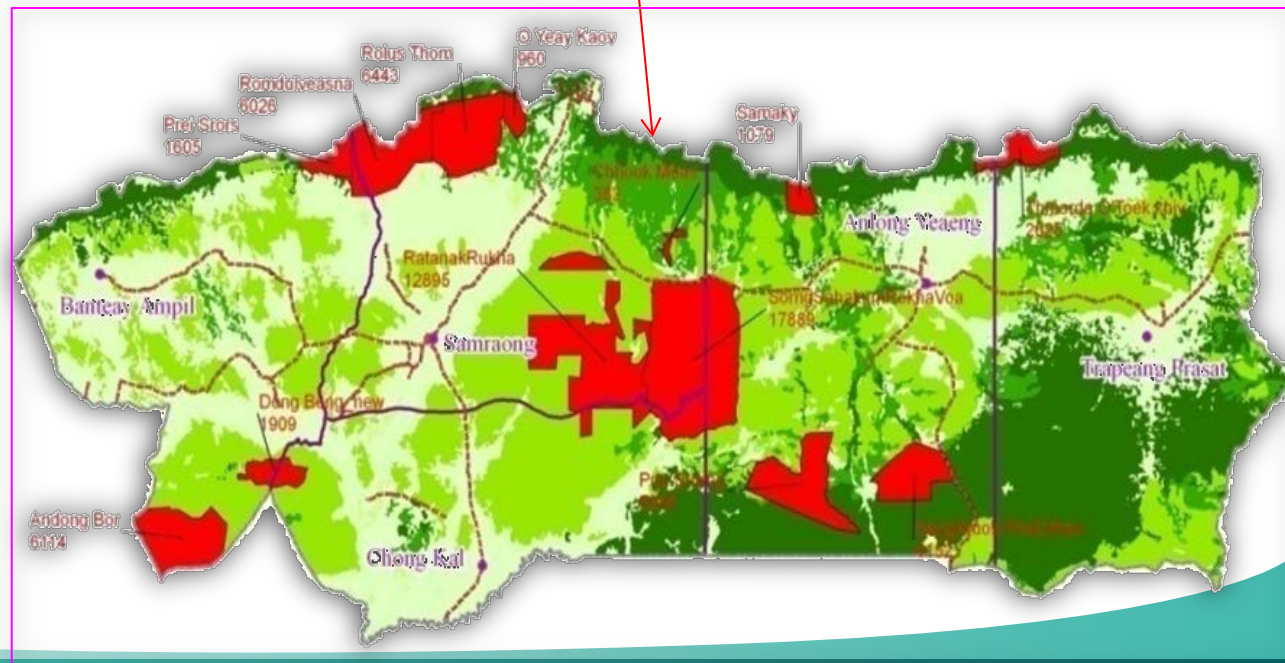

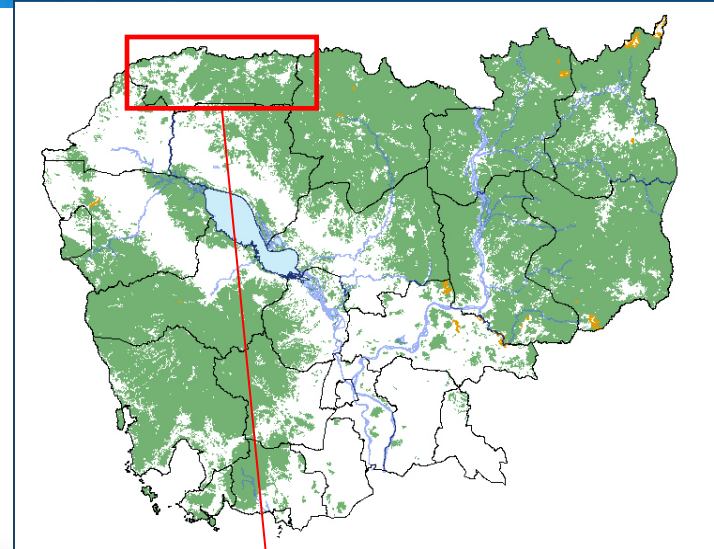

Output 4.5 Support the development of a REDD+ related GHG Reporting System

Output 4.6 Support the development of a REDD+ related GHG Reporting System

5. REDD+ Pilot Project in Oddar Meanchey, Cambodia

Background

- ◆ Oddar Meanchey Province
- ◆ Start: Feb 2008
- ◆ 13 CF sites
- ◆ 64,318 ha
- ◆ 58 villages
- ◆ Multi-stakeholder
- ◆ VCS & CCBA
- ◆ Currently seeking investors

Achievements

- ◆ Community Forestry Agreements for all CFs (2009, 2011)
- ◆ Biomass inventory conducted (2008 – 2010)
- ◆ Methodology completed (Dec 2010)
- ◆ Project Document drafted and consulted (2009 - 2011)
- ◆ Household Survey and Participatory Rapid Appraisal (Oct 2010)
- ◆ Biodiversity assessment (Dec 2010)
- ◆ Monitoring framework developed

6. Conclusion

- ◆ Royal Government of Cambodia has made efforts and committed to SFM and multiple benefits.
- REDD+ support existing strategies within the forest sector (including protected and flooded forests)
- Support to development of sub-national approaches
- Support to capacity building for MRV and REL and development of a system in this area.
- ◆ Forestry sector has worked with various stakeholders and partners to ensure biodiversity and local benefits from REDD+ project.

Thank for your kind attention
