

As of Nov 12th, 2017

NIES/ IGES/UTM/MHIR/E-konzal
COP23 Japan Pavilion Side Event

Make Asian Cities as Low Carbon Champions
- supporting city-to city collaboration among Japanese and Asian cities

Date: 17:30-18:15, Nov 13 (Mon), 2017

Venue: Japan Pavilion

Japan supports Asian cities to develop low carbon planning and implementation under several schemes. AIM team supports to develop low carbon action plan of cities in Vietnam, Indonesia, Cambodia and supports know-how transfer of Tokyo Metropolitan Government's building climate action to cities in Malaysia and Vietnam. IGES supports Semarang in Indonesia to apply know-how of renewable energy and public transportation in Toyama city. We will share local climate actions on the ground and discuss about how to enhance "Global Climate Action".
