

# Zero Carbon City Initiative and Local Governments' Readiness in Japan

LCS-RNet 13th Annual Meeting: New Scientific Challenges  
for Strengthening Actions Based on IPCC AR6

Day2: Friday, 16 December, 2022, 18:00- 21:00 (GMT+09:00)

**ASAKAWA Kenji**  
City Taskforce

# However, declared cities are biased in terms of financial strength and population size..

## In order to achieve CN throughout Japan,

- Do not leave small- and medium-sized cities behind,
- Provide national policy interventions of technical and personnel supports, and
- Support their own climate action planning first, and then implementation their plan, especially local RE development.
